Journal of volcanology and geothermal research

Contents Volume 72, 1996

Research Papers

Extreme HIMU in an oceanic setting: the geochemistry of Mangaia Island (Polynesia), and temporal evolution of the Cook–Austral hotspot
J.D. Woodhead 1

Chlorine-rich pyrometamorphic magma at White Island volcano, New Zealand
C.P. Wood and P.R.L. Browne 21

An Archean oceanic felsic dyke swarm in a nascent arc: the Hunter Mine Group, Abitibi Greenstone Belt, Canada
J. Dostal and W. Mueller 37

Sources of chloride in hydrothermal fluids from the Valles caldera, New Mexico: a ^{36}Cl study
U. Rao, U. Fehn, R.T.D. Teng and F. Goff 59

Factors controlling the temporal evolution of explosive eruptions
R. Scandone 71

Caldera morphology in the western Galápagos and implications for volcano eruptive behavior and mechanisms of caldera formation
D.C. Munro and S.K. Rowland 85

Role of permeability versus temperature in the distribution of the fine (< 0.2 μm) clay fraction in the Chipilapa geothermal system (El Salvador, Central America)
P. Patrier, P. Papapanagiotou, D. Beaufort, H. Traineau, H. Bril and J. Rojas 101

Analysis of macroscopic fractures in granite in the HDR geothermal well EPS-1, Soultz-sous-Forêts, France
A. Genter and H. Traineau 121

Discussion

Comment on "The Canary Islands: an example of structural control on the growth of large oceanic-island volcanoes" by J.C. Carracedo
J. Martí, G.J. Ablay and S. Bryan 143

Morphological and structural evolution of the western Canary Islands: hotspot-induced three-armed rifts or regional tectonic trends?
J.C. Carracedo 151

Research Papers

Interpretation of the Bouguer anomaly of Milos island (Greece)
G.N. Tsokas 163

High-frequency earthquakes at White Island volcano, New Zealand: insights into the shallow structure of a volcano-hydrothermal system
Y. Nishi, S. Sherburn, B.J. Scott and M. Sugihara 183

A multiple-parameter approach to andesitic tephra correlation, Ruapehu volcano, New Zealand
S.J. Cronin, V.E. Neall, R.B. Stewart and A.S. Palmer 199

Ductile–brittle transition structures in the basal shear zone of a rhyolite lava flow, eastern Australia
J.V. Smith 217

Compositional variations in submarine volcanic ashes from the vicinity of the Vanuatu Island Arc: a response to ridge–arc collision?
P.E. Baker and E. Condliffe 225

Relevance of the Chiancone volcaniclastic deposit in the recent history of Etna Volcano (Italy)
S. Calvari and G. Groppelli 239

Petrology of the Easter microplate region in the South Pacific
R. Hekinian, J. Francheteau, R. Armijo, J.P. Cogné, M. Constantin, J. Girardeau, R. Hey, D.F. Naar and R. Searle 259

The morphology and formation of flow-lobe tumuli on Icelandic shield volcanoes
M.J. Rossi and A. Gudmundsson 291
